

Self lay schedule

This form should be used to submit the information required to complete a draft water adoption agreement (often referred to as a “self lay agreement”). For assistance in completing the form and further information, please refer to the guidance section attached to this form.

Please return the form, fully completed to developerservicessouth@eswater.co.uk with

1. Copies of Land Registry documentation and other supporting documents where relevant
2. Payment for the self lay administration fee and self lay legal fee (as a minimum), ensuring that the quotation reference is written on the back of any cheque or used as a reference on any BACS payment.

ESW ref	
Date sent to ESW	

Site address	
Registered land title number (please provide up to date copy and plan)

Guidance:

General

This form is to be completed and signed on behalf of the parties wishing to enter into an agreement with us to adopt water assets.

The majority of information we have requested is required for inclusion in the draft legal agreement and therefore it is important that all the information is provided.

Requirement for a legal adoption agreement (“self lay agreement”)

Section 51(A) of the Water Industry Act 1991 requires that those who wish to construct water mains and service pipes are required to enter into an agreement with a water undertaker to adopt them at a later date.

Form of legal agreement

The water industry, stakeholders and representatives of customers have agreed Water Sector Guidance (WSG) that includes a model form of agreement known as the Model Water Adoption Agreement (MWAA), which is to be used by all parties in England.

The WSG and agreement can be found at:

<https://www.water.org.uk/water-sector-guidance-approved-documents/>

Terms used in this form.

The terms used in this form indicated in bold black text have the same meaning as in the MWAA.

Notes to assist in completing this form:

¹ Please confirm whether the land on the Site it is owned by the Developer or currently in the ownership of another party.

² Please confirm the owners of any adjoining land, not being public highway, in which the water mains and/or service pipes will be located.

³ As defined in our Annual Contestability Summary:

<https://www.eswater.co.uk/globalassets/customer-pdfs/developer-pdfs/nwg-annual-contestability-summary-v1.pdf>

⁴ For service connections, please provide separate information as to the plot references included in the Water Company Works.
