

Indicative primary wholesale charges for 2025/2026

## Northumbrian Water Limited (NWL)

#### Indicative primary wholesale charges for 2025/26

Ofwat published its Wholesale Charging rules under section 66E and 117I of the Water Industry Act 1991, which sets out requirements to publish indicative primary wholesale charges for 2025/26.

NWL supplies water serices in the Northumbrian Water (NW) region and in parts of Essex and Suffolk, which are known as Essex & Suffolk Water (ESW).

Prices in the NW and ESW regions are different and are shown on separate tabs. The structure of water tariffs in the two regions are the same.

NWL also supplies sewerage services in the NW region only.

Our Account Managers will be in touch soon to provide the indicative charges in an Excel file with the associated CMOS tariff codes.

Information shown in this document is published on an indicative basis for information only, and the final publication of charges in January 2025 may be different.

Schedule for measured wholesale water supply 2025/26

Company comments

Note 1: Properties charged on the Assessed Tariff are charged an assessed band for their foul charges, as shown in the foul only column. Surface water and highway drainage are charged on the same basis as the measured tariffs (see the measured sheet).
